SUMMARY

Product Designer with **2+ years** designing consumer fintech products for Indian users, from user research and problem framing to shipping and measuring outcomes. Sole designer across 3 products at FREED, India's first digital debt relief platform. Track record of measurable impact: **10% lift in top-of-funnel enrollment, conversion from 8% to 10%, 40 minutes saved per case** and **300+ production screens** shipped. Built 0→1 journeys, design systems and a vernacular app, working closely with PMs, Engineering and Data. AI-native in research and prototyping.

PROFESSIONAL EXPERIENCE

Product Designer – App Journeys & Growth | FREED

Feb 2025 – Present

Sole product designer across 3 products on web, iOS and Android, partnering with 5 PMs and Engineering.

- Ran **100+ user interviews** and usability studies; turned pain points and **funnel data** into prioritised requirements with PMs.
- Redesigned the settlement and payment journey; **A/B tests** showed a **10% lift in top-of-funnel enrollment** and **conversion up from 8% to 10%**.
- Designed 0→1 journeys: **EMI Score, Credit Score** (7 segment-specific journeys with a locked-to-unlocked paywall) and new product **DEP**.
- Built the **vernacular version of the app**, adapting flows and content so regional-language users could understand debt relief.
- Owned onboarding from sign-up to app activation, cutting steps at drop-off points; added **rewards, gamification** and **user education modules** to drive retention.
- Redesigned the internal sales CRM's information architecture, saving **40 minutes per case** for sales reps.
- Ran **20+ experiments** validated with event data (MoEngage, UXCam); used **AI workflows** (Claude, Lovable) for synthesis and rapid prototyping.

UX Designer | Creating Space.Studio

Sept 2024 – Feb 2025

- Rebuilt an architecture firm's website around a new information architecture and added a **booking flow**.
- Designed a meditation app around the user's emotional journey, prototyped in Figma.

UI/UX Design Intern | Flabs (IIT Roorkee startup)

Mar 2024 – Jun 2024

- Redesigned the product website; ran **usability tests** and **competitive analysis** across 15+ products.

Design Intern & Freelance | Kreativ Street

Jun 2023 – Present

- Brand identity systems for XIBMS and SNTD College; redesigned Namdapha National Park's website for the Govt. of Arunachal Pradesh.

SKILLS

- **Design:** Product Design | Interaction Design | 0→1 Design Systems | Information Architecture | Wireframing & Prototyping | Vernacular & Accessible Design
- **Research & Data:** User Research | User Interviews | Usability Testing | Data Analysis | Funnel Analysis | A/B Testing | Journey Mapping
- **AI & Tools:** AI Workflows (Claude, Lovable, ElevenLabs) | Figma | Framer | Webflow | MoEngage | UXCam | Adobe Creative Suite

EDUCATION

BA Economics, Delhi University

2021 – 2024
